

MASARYK
UNIVERSITY

PRINCIPAL INVESTIGATOR

WHERE: University Campus, Building A11, room 234

WHEN: Every Friday – From 11:00 October – December
(Autumn Semester)

SEMINAR SERIES 2017

OCTOBER

06/10/2017 **Milan Gelnar** Parasites Like a Language of Evolution

Department of Botany and Zoology, Faculty of Science, MU

13/10/2017 **Dominik Heger** Compounds on Water Ices: Natural Environment and Biochemical Cryopreservation

Department of Chemistry, Faculty of Science, MU

20/10/2017 **Jiří Fajkus** My Life with Telomeres: When Size Matters

Genomics and Proteomics of Plant Systems, CEITEC MU

27/10/2017 **Kamil Paruch** New Organic Compounds With Targeted Biological Activity – Useful Tools for (Chemical) Biology

Medical Chemistry (MCHEM)

NOVEMBER

03/11/2017 **Daniel Nyvlt** Czech Antarctic Research Associated with the Czech Antarctic Research Infrastructure.

Department of Geography, Faculty of Science, MU

10/11/2017 **Stepanka Vanacova** The Reason for U

Structural Biology, CEITEC MU

24/11/2017 **Monika Pavkova Goldbergova** Cell Interactions With Respect to Nickel Alloys

Department of Pathological Physiology, Faculty of Medicine, MU

DECEMBER

01/12/2017 **Dalibor Blažek** Non-canonical Cyclin-dependent Kinases: Emerging Players in Regulation of Gene Expression and Development of Cancer

Molecular Medicine, CEITEC MU

08/12/2017 **Petr Dubovy** Restart of Neuronal Regeneration Program

Department of Anatomy, Faculty of Medicine, MU
