ELIXIR - EXCELERATE structural funds workshop
9 Oct 2015

If you want to go fast,
go alone.

If you want to go far,
go together.

AFRICAN PROVERB

Showcases of structural funds usage in Slovenia

Construction of the Pregl Research Centre at the National Institute of Chemistry

Total funds: 9.9 mio EUR, structural funds: 6.7 mio EUR

- The National Institute of Chemistry is among the most important research institutions in Slovenia
- The Pregl Research Centre significantly contributes to the competitiveness of the Slovenian science.
- The newly built Pregl Research Centre building allows for the installation of the most sensitive research equipment, mostly also acquired with the EU funds.
- Among this equipment is the transmission electron microscope with chemical analysis, which is so far the most expensive single piece of research equipment purchased at any time in Slovenia.

Showcases of structural funds usage in Slovenia

Modernisation of the Office for Metrology of the Republic of Slovenia.

Total funds: 3 million EUR, structural funds: 2.6 million EUR

- The Office for Metrology
 - is responsible for the custody for national etalons for physical quantities.
 - It is an important pillar of the R&D infrastructure and
 - improvements in metrology are very much in line with the needs of economy.
- The structural funding
 - helped in acquisition of better metrology equipment and
 - extend the metrology capabilities to areas that were not covered yet.

Showcases of structural funds usage in Slovenia

Emergency Centre Murska Sobota

Total funds: 6.3 mio EUR, structural funds: 3.7 mio EUR

- ER Centre in the General Hospital Murska Sobota
 - Will improve speed, efficiency and quality of medical treatment in emergency medicine.
 - Before emergency care was provided on four different locations.
 - Training and development of new procedures is now easier in complementary simulation centre.

ELIXIR.SI node

- located at UL Faculty of Medicine (ULMF)
- ULMF:
 - financial and accountant department for projects; Janka Jugovic, BEc
 - established project office for Artemida project; Bojan Skvarča, BEc
- UL:
 - project office; Zlata Ploštajner, MSc
