

# Advanced Fluorescent Microscopy Techniques: I believe what I see

Monday

16/02/2015

Mendel Museum, Augustinian Abbey

Mendlovo nám. 1a, Brno

You are cordially invited to the upcoming lectures and workshop organized by Life B - Laboratory of interaction and function of essential biomolecules. The workshop will be dedicated to modern microscopic techniques used for the study of biomolecular interactions and functions. The program will consist of one day of lectures given by outstanding and internationally recognized speakers. The lectures are open to broad audience. The lecture day is followed by four day practical workshop that will be focused on training of students that will use the sophisticated microscopic approaches in their research.

You can register [HERE](#)

Detailed program will be available soon.

## CONFIRMED LECTURERS

**Jörg Langowski**

*Biophysics of Macromolecules,  
University of Heidelberg*

**Katalin Tóth**

*German Cancer Research Institute,  
Biophysics of Macromolecules, Heidelberg*

**Jens Schmidt**

*Cech Laboratory, Biofrontiers Institute,  
University of Colorado Boulder*

**Oleksandr Chernyavskiy**

*Department of Biomathematics,  
Institute of Physiology, Prague*

**Xiaoyu Li**

*Olympus, Germany*

**Uroš Kržič** or **Pavel Krist**

*Zeiss, Germany, Czech Republic*
